FOREWORD

Following the recovery of the bulk of his collection of coins in 1969, Elmore Jones sold his Anglo-Saxon coins by auction in May 1971. He retained the later coins, some 2,100 specimens, from the conquest of William I in 1066 to the reform of Edward III in 1351. Foremost is the unsurpassed collection of "Tealbies", the Cross-and-Crosslets issue of Henry II, comprising some 840 pieces, only 110 less than the National Collection. The quality of many of these pieces does not warrant illustration in an auction catalogue but it is intended to make photographs of the whole series available before disposal. Other specialist groups include 156 Paxs pennies of William I, representing all but four—Cardiff, Pevensey, Rochester and Tamworth—of the 64 mints recorded for the type; 49 specimens of Stephen, Type VII, out of a total of 242 noted by Robert Seaman; the pre-1351 Durham coins of Edward III.

Three important pieces have been presented by the family to the British Museum. They are all Stephen, Type VII—Pevensey, moneyer Felipe, Salisbury, moneyer Wineman and Warwick, moneyer Everard—and each is listed by Elmore Jones in his paper in B.N.J. XXVIII as the only known specimen of the moneyer for the mint for the type, though Seaman notes another coin of Felipe, almost certainly Pevensey, listed in the Boyne catalogue, Sotheby 21-31 January 1896, lot 1192.

This catalogue, following on from the Anglo-Saxon coins at Lot 1017, lists a quarter of the coins in the collection, comprising a representative selection from each series with the exception of the Edwardian pennies where all the coins of Classes I-III only are offered. The arrangement is by type and mint and care has been taken to offer die-links together in any one sale, though not very often in any one lot, especially in the "Tealby" series.

Basic references are to North's English Hammered Coinage and Seaby's Standard Catalogue of British Coins, and the British Museum Catalogues of the Coins of the Norman Kings and the Cross-and-Crosslets ("Tealby") Type of Henry II. Specialist references, often given in the text, are listed separately, though they, and others, are all indexed by North in his 2nd edition.

My thanks are due to Mr. Jeffrey North, who has checked the identification of the Shortcross, Longcross and Edwardian pennies, and made other very useful comments. On Elmore Jones' instructions, Mr. Frank Purvey, of B. A. Seaby Ltd., has prepared the plates. Weights, where given, are in grains, and are the weights taken at the British Museum, the home of the collection since recovery, consistently 0.2 grains heavier than on our office scales.

Peter Mitchell,

SALE CATALOGUES

On the average we issue twelve or more Coin Catalogues and three Naval & Military Medal Catalogues each year, some of which are usually of Sales of important Collections.

CATALOGUE SUBSCRIPTIONS

Sale Catalogues, frequently illustrated, are normally posted to Subscribers about three weeks prior to the date of Sale.

Lists of "Prices Bid" are issued after each Sale, thus giving at a glance a reliable guide to value. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading. The Lists of "Prices Bid" will probably be enclosed in a following Sale Catalogue.

AIR MAIL POSTAGE

To allow subscribers resident outside Europe time to submit Postal Bids, Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and the cost must be borne by the Subscriber. In such cases a deposit against the cost is required.
